Let's Get Motivated!

What does 'motivation' mean to you? Write down your thoughts below!

Help! i Have No Motivation!

What is an activity that you struggle to find motivation to do? Draw it below!

So - what helps you get it done?

A List of Things I Like...

Day 2

Brainstorm all the things you love doing in the cloud below!

It doesn't matter if they're big or small things - just write down anything that comes to your head.

Today's Challenge: Do Something You Love!

What is an activity you love, but you haven't done in a while?

Maybe it's playing a musical instrument, being in nature, playing sports, listening to music, or reading a book.

Whatever it is - your challenge for today is to do it!

Today I'm going to _____ because it makes me feel _____.

Read the statements below. Tick the ones you agree with.

☐ My intelligence can grow.

☐ If I find an activity hard, it's because I'm dumb.

☐ I'll never be good at this!

☐ I will not give up!

☐ I'm not the smartest in class, so there's no point.

☐ If I keep trying, I can become smarter.

☐ There is always room for improvement.

☐ Each time I get a wrong answer is a step closer to getting the right one.

☐ I'm so talented that I don't even need to try!

Did you tick mostly triangle or circle statements?

If you got mostly triangles:

It looks like you have more of a **fixed mindset**.

You can turn this into a growth mindset by seeing challenges and mistakes as opportunities to grow!

And even if you *are* great at something - there is always room for improvement.

If you got mostly circles:

It looks like you have more of a **growth mindset**!

This means you believe that you can grow and improve your intelligence.

Even when things seem hard, you see it as a challenge to learn something new.

This helps you be resilient.

Remember: Just because you might find something hard now, doesn't mean that you will never get it.

Instead of seeing your mistakes as failures, you should see your mistakes as steps to help you find the correct way!

Get S.M.A.R.T. about Goals!

Day 5

An important part of motivation is goal setting. When you set a goal, you have something to work towards.

Introducing - S.M.A.R.T. goals!

S.M.A.R.T. is an acronym that tells you about the 5 most important parts to consider when creating a goal.

Specific

Your goal needs to be specific and clear. Everyone should be able to understand what your goal is if they read it.

Measurable

You must be able to measure whether or not you have achieved it.

Achievable

Your goal should stretch you, but it should not be out of your reach. With hard work, you should be able to get there.

Relevant

Make sure your goal helps you get to where you want to go.

Time-bound

You must achieve your goal in a set time.
